

VINCENT COLAVIN

SENIOR WEB DEVELOPER

✉ vcolavin@gmail.com 🌐 vcolavin.com ☎ 858 531 3765

SUMMARY

Highly skilled senior web developer seeking remote work in an emotionally mature workplace as a mentor, leader, and individual contributor. Currently specialized in the front-end, especially React, Redux, and TypeScript. Broad background includes deep full-stack experience and suicide crisis counseling.

SKILLS

JavaScript (ES6), TypeScript, React, Redux, a11y, CSS / Sass, Node, Ruby, Webpack, Agile, Native fluency in French

EMPLOYMENT

Innotivity · Senior Front-end Developer

Remote · Feb. 2021 to Mar. 2021

- Short-lived position as a startup's first employee
- Served as leader for front-end development efforts, including major cultural, product, and design choices
- Day-to-day tools included React, TypeScript, and GraphQL

Esri · Software Developer II (Front-end)

Remote / Portland, OR · May 2019 to Nov. 2020

- Acted as a subject-matter expert for React, Redux, and TypeScript on the ArcGIS Online team.
- Lead developer on high-impact rewrites and feature work for major CRUD workflows in ArcGIS Online.
- Proactively lifted up my team by mentoring and advocating for newcomers and junior developers.
- Organized and lead knowledge sharing meetings to help the whole team excel.
- Prioritized stability, maintainability, and accessibility on a critical, global application.

Periscopic · Front-end Developer

Portland, OR · Dec. 2017 to Apr. 2019

- Deepened mastery of modern web technologies (e.g. TypeScript, React, Redux, Webpack) to create data visualizations and UIs at a small firm renowned in its industry.
- Reacted flexibly to the diverse needs of multiple clients, learning and deploying novel skills with quick turnaround (including Wordpress, GraphQL, and WebGL)
- Lead initiative to build accessible, inclusive user interfaces.
- Worked with a high degree of independence and success, whether as the technical lead on a project or as part of a larger team.

Lines for Life · Crisis Call Worker (volunteer)

Portland, OR · 2017 to 2019

- Completed over 300 hours of answering calls from people in a great variety of crises, helping to keep them safe.
- Received many hours of relevant training, and became ASIST certified.

FocusVision · Software Engineer (full-stack)

Portland, OR · Sept. 2016 to Sept. 2017

- Full-stack development with a Rails back-end and Ember 2.x front-end
- Used Scrum (with Jira) to manage tasks, sprints, and epics
- Worked in a small team, took part in code review, decision-making, and sprint planning.
- Personally advocated for and implemented ARIA-accessible user interfaces across several apps

Notch8 · Junior Web Developer (full-stack)

Portland, OR · Apr. 2015 to Mar. 2016

- Worked for a diverse clientele using many different technologies and techniques.
- Generally used a Rails-api back-end with an Angular 1 front-end.
- Used Agile techniques including Kanban, TDD, and pair programming to ensure timeliness and quality.

EDUCATION

University of California, Santa Cruz

BA History of Asia with a minor in East Asian Studies 2013

Additionally completed all available lower division computer science courses.

Dev Bootcamp, San Francisco

Intensive Web Development Program 2015
