SKILLS

JavaScript (ES6), TypeScript, React, Redux, CSS / Sass, Node, Ruby, Ember, Webpack, Agile, Native fluency in French

EMPLOYMENT

Periscopic · Front-end Developer
Portland OR · Dec. 2017 to Current
- Used modern web technologies (e.g. TypeScript, React, Redux, Webpack) to create myriad beautiful and complex interactive data visualizations at a small firm renowned in its industry.
- Reacted flexibly to the diverse needs of multiple clients, learning and deploying tools and skills effectively with quick turnaround (e.g. Wordpress, Python).
- Advocated for, built, and designed schemes for making data visualization accessible to disabled users.
- Often worked with a high degree of independence and success as the sole developer on a project, building confidence and experience.

FocusVision · Software Engineer
Portland, OR · Sept. 2016 to Sept. 2017
- Full-stack development with a Rails back-end and mostly Ember 2.x front-end
- Used Scrum (with Jira) to manage tasks, sprints, and epics
- Worked in a small team, took part in code review, design decisions, and sprint planning.
- Personally advocated for and implemented ARIA-accessible user interfaces across several apps

Notch8 · Junior Web Developer
Portland, OR · Apr. 2015 to Mar. 2016
- Worked on a wide variety of projects using many different technologies and techniques.
- Generally focused on Rails-api with an Angular 1 front-end.
- Used Agile techniques including Kanban, TDD, and pair programming to ensure timeliness and quality.

Dev Bootcamp · Teaching Assistant
San Francisco · Mar. 2015 to Apr. 2015
- Hired immediately after graduation by Dev Bootcamp as a TA to teach students JavaScript and Ruby fundamentals.

VOLUNTEERING

Lines for Life · Crisis Call Worker
Jan. 2017 to Current
I answer calls from people in a great variety of crises, helping to keep them safe from suicide or drug abuse. I went through months of training to be able to do take calls, and also received an ASIST certification. This work is immensely challenging, but extremely rewarding.

EDUCATION

University of California, Santa Cruz
BA History of Asia with a minor in East Asian Studies 2013
Additionally completed all available lower division computer science courses.

Dev Bootcamp, San Francisco
Intensive Web Development Program 2015
